6,500-4,000 Years Ago

Broadly speaking, **Cycladic art** consists of small, stylized figures and vessels, either sculpted from marble or molded from clay. The majority of these were produced during the Grotta-Pelos (Early **Cycladic I**) culture (c. 3200?-2700 BC) and the Keros-Syros (Early **Cycladic II**) culture (c. 2700-2400/2300 BC).

Early Cycladic Art (4,500 BCE)

Classical Cycladic Art (c. 2,700 BCE)

Modernists

- Brancusi, Modigliani, Henry Moore

Isamu Naguchi

Isamu Noguchi (1904–1988) was one of the twentieth century's most important and critically acclaimed sculptors. Through a lifetime of artistic experimentation, he created sculptures, gardens, furniture and lighting designs, ceramics, architecture, and set designs. His work, at once subtle and bold, traditional and modern, set a new standard for the reintegration of the arts.

Born in Los Angeles, California, to an American mother and a Japanese father, Noguchi lived in Japan until the age of thirteen, when he moved to Indiana. In 1926, Noguchi saw an exhibition in New York of the work of Constantin Brancusi that profoundly changed his artistic direction.

William Levitt (1941-

<https://www.artsy.net/show/honor-fraser-william-leavitt-cycladic-figures>

Leavitt explores these ideas of multiplicity in his paintings and works on paper. In his Head Space series, the faces of two figures appear in silhouette. The figures—along with the title of the exhibition—refer to sculptures produced in the Cyclades islands off the coast of Greece nearly five thousand years ago. The backgrounds comprise faraway landscapes, urban settings, and grassy fields. Rather than creating a traditional portrait, Leavitt offers the faces as picture planes unto themselves, the silhouettes filled with images of ancient architectural remains or an array of objects floating in space. As in Leavitt's sculptural installations, his painted scenes are composed of layers that beckon us to engage our imaginations with the stories they offer.

Assignment Suggestions

- Create a Cycladic self portrait
- Create an artwork that decontextualizes an object to the point of abstraction (e.g., zoom in or crop an image)
- Use Cycladic outlines as a window onto something else
- Experiment with minimalism
- Take a minimalist form and “graffiti” it. (Project images onto a simple form).
